

Circular connector specification

1、Product description

Model number: Jb PC7TB

Applicable Standard: 3E0 204 062JT

Connection method:Spiral installation

Shell material: Aluminum alloy

Contact material: Copper, Silver plated

2、Property

Temperature	-60℃~+85℃	Contact resistance	$\leq 5\text{m}\Omega$
Life Span	250 times	Current loading	22A
Vibration	Frequency 5-2500Hz 15g	Working voltage	200V
Impact	50g per time	Insulation resistance	$\geq 1000\text{M}\Omega$
Insulation temperature tolerance		-60℃~+400℃	

3、Structural dimension (Open tolerance, $\pm 0.2\text{mm}$)
